

How to Use Your Verizon JetPack Hotspot

1. The Power Button/Menu button is located on the side of the Verizon Jetpack. Press the button and hold until the Ellipsis logo appears in the display window to turn on your Jetpack.
2. A white blinking light indicates that the Jetpack is powered on.
3. With the display on, press the power/menu button once to enter the menu (if the screen is off, press the power/menu button to exit sleep mode).
4. This screen will appear next. Wait until you see the Verizon 4G LTE screen.
5. Wait again until you see the next screen.
6. Press the power/menu button once when this screen appears.
7. Press the power/menu button again to display the Wi-Fi name. This is the Wi-Fi network name you will need to select to connect your Chromebook.
8. Press the power/menu button one more time to display the Wi-Fi password. This is the password you will need to enter to connect your Chromebook.
9. When you are done using your Verizon Jetpack hotspot, press the button and hold it until you see the Goodbye message.
